

Vertical Blinds

Unparalleled Strength and Performance

SWFcontract Vertical commercial-grade blinds provide superior strength and exceptional performance with a wide range of colors, textures, vane options, and specialty shapes to enhance any commercial setting and decor.

Vertical blinds provide ideal, cost-effective solar control to wide window and patio door applications while enhancing architectural design and adding depth, character, and color to any interior project.

Great for a variety
of applications

Multi-family
Education

With our Limited Lifetime Warranty on the headrail and components, you can specify SWFcontract vertical blinds with complete confidence.

SWFcontract is part of the commercial division of Springs Window Fashions, an industry leader in window coverings since 1939. SWFcontract has unmatched experience with our window coverings installed in more than one million commercial applications throughout North America.

SWFCONTRACT™

Blind Systems

The Workhorse
 The G-71 Super -Vue® Vertical Blind system leads the industry in precision, engineering, and durability for vertical blinds. The G-71 is our toughest commercial-grade blind system making it the top choice for high-traffic areas such as healthcare and hospitality facilities. The G-71 is the “workhorse” of the industry built for ease of operation and years of reliable service that exceeds the competition.

With its proprietary design and operation, the G-71 is also ideal for curved and angled windows to enhance window design and architectural intent.

Maximum View

The G-98 Ultra-Vue® Vertical Blind system features the smallest stack of any SWFcontract vertical blind system to make sure outside views aren't diminished when the vanes are completely open. To ensure a consistent look and preserve daylight control, G-98 vane stems are self-aligning when rotated to eliminate out-of-sync vanes.

Dependable Operation

The G-85 Dura-Vue® Vertical Blind is ideal where tighter budgets are a consideration. The G-85 is designed around a tough, durable, phosphate-treated steel headrail with a baked enamel finish. Even though designed for a tighter budget, quality is not sacrificed. The G-85 will deliver years of dependable operation that exceeds the competition.

Features

Fabric Vanes

Fabric vanes made with the Brighton fabric collection are 3½" wide, fire resistant, and comply with NFPA 701 Small Scale Test and California Fire Marshal Title 19:1237.1 Small Scale Test. Fabric vanes feature a sewn-in bottom weight to hang straight to ensure a consistent look. Optional channel panels add room darkening capabilities while maintaining fabric appearance.

PVC Vanes

PVC vanes are available in 2" and 3½" widths and comply with NFPA 701 Large Scale Test requirements. Our vanes use a 100% PVC compound designed specifically for use in window treatments to ensure long-lasting color, durability, and easy cleaning. PVC vanes are available in a wide variety of solid, duplex, embossed, and printed color patterns and textures.

Aluminum Headrail

Strong, durable, and moisture-resistant—ideal for high-humidity or moist environments.
 (Available: G-71/G-98)

Steel Pantograph Traverse System

Hardened, plated steel system provides smooth and easy vane operation with precise and proportional vane spacing.
 (Available: G-71)

Self-Lubricating Carriage Wheels

Maintenance-free wheels provide a smooth and easy blind operation.
 (Available: G-71/G-98/G-85)

Reversible Stack

Vane stack can be mounted on the right or left for added design options and flexibility.
 (Available: G-71/G-98/G-85)

E-Z Open Cord Control

Automatically rotates vanes open when shade is traversed eliminating stem breakage and misaligned louvers.
 (Available: G-71)

Cut-outs

Sections of vane material can be cut out to clear an obstruction in front of a window eliminating the need for separate blinds.
 (Available: G-71/G-98/G-85)

One-Touch® Wand

Alternative to cords and chains for rotating vanes and traversing blinds. Ideal for added safety in environments such as day-care centers.
 (Available: G-71/G-98/G-85)

Fully Enclosed Operating System

Keeps dust and debris out of the operating mechanism to endure long life and easy, worry-free operation.
 (Available: G-71/G-98/G-85)
